

TRAUMA INFORMED CARE

Our top priority is safety, as well as the social, mental and emotional well-being of youth and families in care. Staff at all levels recognize that each child and family has unique skills and experiences that make them who they are.

Our work builds upon individual strengths, creating partnerships that foster hope for the future. In working together, we engage in collaboration, empowerment and choice. We work with families, as they are the true experts for their distinct situations and goals.
